

SAP S4 ePPDS module live training syllabus

General overview of S4 Hana

Overview of ePPDS and APO PPDS

Master data of ePPDS

Interface CIF

Module 1: Introduction to Production Planning and Detailed Scheduling in SAP S/4HANA embedded PP/DS

In this module, a professional will learn about planning demand in the supply chain

- Planning Demand in the Supply Chain

Module 2: Production Planning Results Evaluation

In this module, a professional will learn about Evaluating the Planning Run Results with Alerts

- Production Planning executing in Product View
- Evaluating the Planning Run Results with Alerts

Module 3: Planning Procedure

In this module, a professional will learn about Configuring Basic Parameters for Planning

- Configuring Basic Parameters for Planning
- Executing the Production Planning Run
- Planning a Product Using the Planning Procedure

Module 4: Order Creation with Product Heuristics

In this module, a professional will learn about Planning Make-to-Order Production Using PP/DS

- Using Demand Management in PP/DS
- Planning Make-to-Order Production Using PP/DS
- Using Firming in PP/DS
- Configuring Product Heuristics

Module 5: Scheduling in Production Planning

In this module, a professional will learn about Determining the Source of Supply of the Order

- Determining the Source of Supply of the Order
- Scheduling Operations with the Strategy Profile
- Scheduling a Planned Order for Production

Module 6: Pegging in Production Planning

In this module, learn about fixed pegging

- Configuring Dynamic and Fixed Pegging

Module 7: Additional Heuristics in Production Planning

In this module, a professional will learn about Planning Production Using Process Heuristics and others

- Planning Production Using Process Heuristics
- Planning Production Using Service Heuristics

Module 8: Scheduling Operations with the Detailed Scheduling Planning Board

In this module, a professional will learn about Planning Production with Detailed Scheduling Strategies and Heuristics

- Planning Production with Detailed Scheduling Strategies and Heuristics
- Managing Setup Times with the Setup Matrix
- Managing Scheduling with the PP/DS Optimizer
